PROFESSIONAL SUMMARY

Aspiring Data Analyst with hands-on experience in SQL, Power BI, Python, and Excel, specializing in data analysis, dashboard development, and business intelligence. Developed end-to-end analytics projects across E-Commerce, Healthcare, Sports Analytics, and Music Analytics using real-world datasets. Skilled in transforming complex data into actionable insights, identifying business opportunities, and supporting data-driven decision-making through visualization and statistical analysis.

TECHNICAL SKILLS

- SQL Server, SQL Joins, CTEs, Window Functions, Subqueries
- Power BI, DAX, Data Modeling, Dashboard Development
- Python, Pandas, NumPy, Matplotlib, Scikit-learn
- Excel, Data Cleaning, EDA, Statistical Analysis
- Streamlit, Git, GitHub, VS Code
- Business Analytics, KPI Reporting, Data Visualization

CERTIFICATIONS

- Microsoft – Data Analysis and Visualization with Power BI (Coursera)
- Google – Foundations: Data, Data, Everywhere (Coursera)
- Tutedude – Data Analytics Course

PROJECTS

E-Commerce Sales Analysis | SQL + Power BI

- Analyzed 100K+ customer orders and over 16M revenue records from the Olist dataset.
- Built interactive Power BI dashboards to track sales trends, customer behavior, and regional performance.
- Identified top-performing categories and generated business recommendations to improve retention.

Spotify Music Analytics | Python, Power BI

- Analyzed Spotify music data to identify trends in artist popularity, track performance, genres, and listener preferences.
- Performed data cleaning, exploratory data analysis (EDA), and KPI reporting using Python and Pandas.
- Created interactive dashboards to uncover insights related to music engagement and content performance.

Healthcare Risk Stratification & Prediction | Python, Machine Learning, Streamlit

- Developed a predictive model to classify patients into risk categories.
- Applied preprocessing, feature engineering, and model evaluation techniques.
- Built an interactive Streamlit application for real-time risk prediction.

IPL Analysis Dashboard | SQL, Power BI

- Analyzed IPL match and player performance data across multiple seasons.
- Evaluated team performance, win percentages, player statistics, and venue-based trends.
- Developed interactive Power BI dashboards to support sports analytics and performance insights.

EDUCATION

Bachelor of Commerce (B.Com)

University of Rajasthan, Jaipur

2024 – 2028 (Expected)

- Building a strong foundation in Business Analytics, Statistics, Financial Analysis, and Data Interpretation.
- Applying analytical concepts through real-world projects in SQL, Power BI, Python, and Machine Learning.
- Actively developing skills in Business Intelligence, Data Visualization, and Data-Driven Decision Making.

ACHIEVEMENTS

- Completed industry-recognized certifications from Microsoft, Google, and Tutedude.
- Built and published 6 end-to-end analytics projects on GitHub.
- Developed interactive dashboards and machine learning solutions using SQL, Power BI, Python, and Streamlit.
